WELFARE REFORM IN GEORGIA: 1999 - 2009

Senate Bill 104

The enabling legislation for the Temporary Assistance for Needy Families (TANF) program in Georgia was Senate Bill 104, now known as Act 389. The major provisions of the bill included:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are mandated to participate in approved work activities.
- All adult TANF recipients were required to sign a personal responsibility plan that emphasized the fact that they must take personal responsibility to better their lives.

Some of the required actions included:

- ensuring that minor children attend school
 - attending school conferences
 - attending family planning counseling
 - participating in substance abuse treatment, if needed
 - having children immunized
 - obtaining prenatal care.
- Teen parents are required to continue to live with a parent or responsible relative, and must remain in school to obtain their GED or high school diploma.
 - Family cap measures were strengthened, so that TANF cash assistance was not increased for recipients who had another child after receiving TANF for ten months.
 - Families who did not meet work or personal responsibility requirements could be sanctioned, with a reduction or termination of benefits for three (3) months or 12 months, depending on the number of infractions.

The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) was enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program, and replaced it with the Temporary Assistance for Needy Families (TANF) block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time-limited benefits of Temporary Assistance for Needy Families (TANF). The purposes of this legislation were to:

- Provide assistance to needy families so that children could be cared for in their own homes;
- Reduce welfare dependency by promoting job preparation, work and marriage;
- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its TANF program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of a caseworker's job was issuing welfare benefits. With the 1996 introduction of WorkFirst the emphasis shifted to helping recipients find work. During SFY 2005 and 2006, Georgia has focused on training the case managers (formerly called case workers) to assist TANF recipients in maintaining employment as well as seeking career advancement. Customers are not just expected to get a job but to keep the job, seek advancement and earn enough money to leave the welfare rolls. As a result, our TANF caseloads are greatly declined.

New Developments

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focuses on 3 elements: (1) Education-TANF Clients are educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement-TANF clients with a work requirement are engaged in work activities within 7 days of the approval of their application. (3) Monitoring-TANF clients are monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF Cases, in particular the number of Adult Cases on TANF. In SFY07, the monthly average of adult cases was 4,080.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that under gird our work and assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.

- Government cannot and should not take the place of family.
- Children are better off when responsible caretakers are able to provide for their families.
- There is dignity in work, whether with the hand or the head.
- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support and supervision, we can help our customers create a more secure employment future for themselves.

In October 2006, Georgia recognized the need for additional transitional supports to assist customers with job retention and career advancement, thereby, launching the Work Support Program. Details of this program are contained in the Work Supports Section.

In February 2008, the Final Rule for the Reauthorization of TANF was released by the Administration for Children and Families (ACF)/ the Department of Health and Human Services (DHHS). This rule was based on changes required by the Deficit Reduction Act (DRA) of 2005. According to the DRA final document (45 CFR, Parts 261, 262, 263, and 265. pg. 6772), “The DRA reauthorized the TANF program through fiscal year (FFY) 2010 with a renewed focus on work, program integrity, and strengthening families through healthy marriage promotion and responsible fatherhood.”

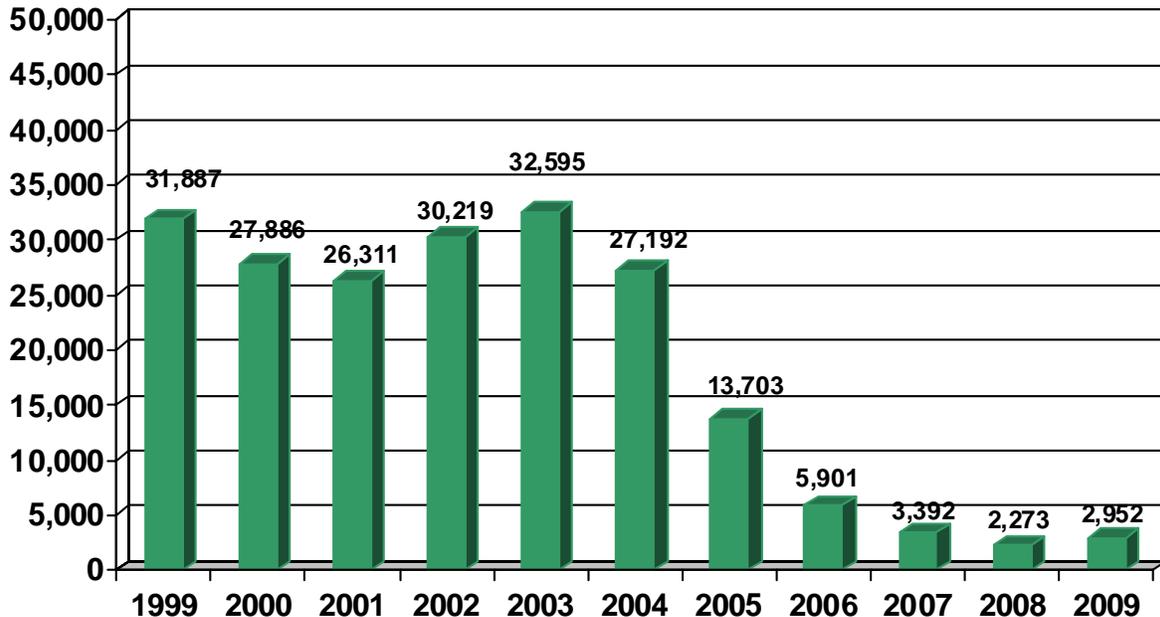

The Deficit Reduction Act retained most of the original welfare reform law. The key changes in the final rule were: (1) defined each of the 12 countable work activities, (2) defined the term “work eligible individual,” (3) clarified that a State may count only actual hours of participation, (4) recalibrated the caseload reduction credit by updating the base year from FFY 1995 to FFY 2005, (5) required each State to establish and maintain work participation verification procedures through a Work Verification Plan, (6) established a new penalty for failure to comply with work verification procedures, and (7) allows additional pro-family expenditures to count toward a State’s maintenance-of-effort (MOE) requirement.

Georgia has made the necessary changes to be compliant with the new guidelines stated in the final rule. The most significant changes were the new internal control guidelines which required major system changes. There was no other major impact on the way business is conducted in Georgia, or in the requirements for this report.

In FFY 2009, we began to see an increase in our TANF Adult caseload. We believe this to be as a result of the global economic downturn that became evident near the end of 2008. Staff in the field has reported that more applications are being approved as more people exhaust their resources and are turning to DHS for services.

TANF Adult CASELOADS

SFY 1999 thru SFY 2009

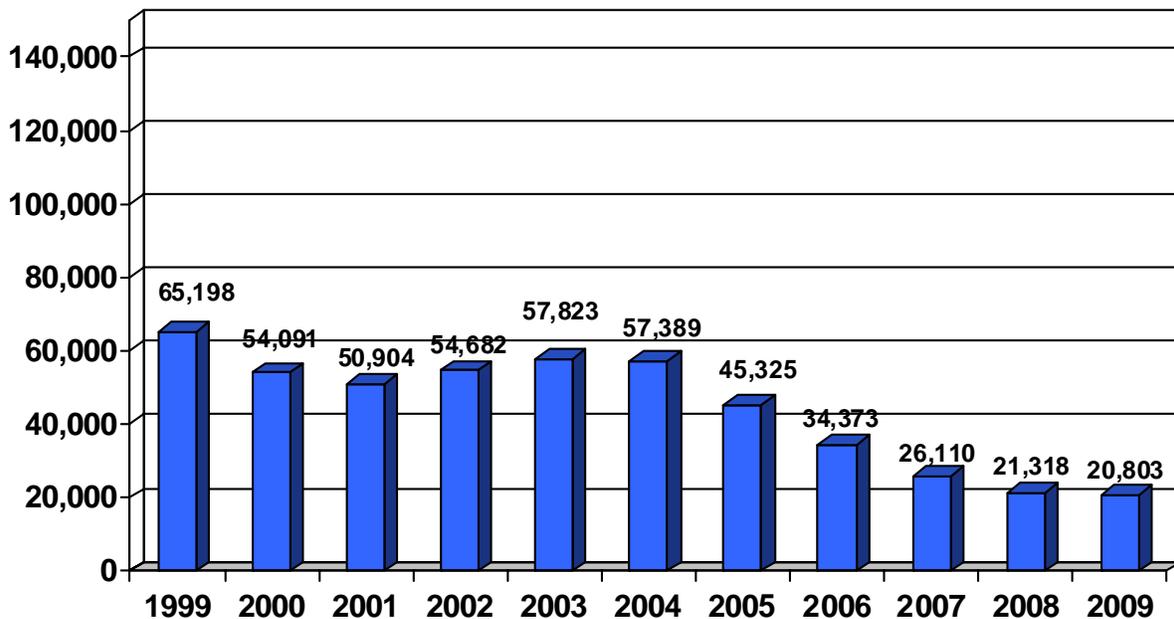

Collaborative Efforts

To achieve Georgia's commitment to assisting TANF recipients to fulfill the requirements of Act 389 and to attain self-sufficiency, it was critical to collaborate with other public service agencies, and with entities in the education and business world. Partnerships were formed with the Georgia Department of Labor (GDOL) and with the Georgia Department of Technical and Adult Education (GDTAE) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, with the Georgia Department of Human Services (DHS) (formerly Department of Human Resources - DHR) providing case management and support services. GDTAE is the primary source for job training, and GDOL focuses on job development and placement. The services provided through these partnerships have contributed greatly to the decline in the number of families receiving TANF since the implementation of welfare reform. TANF customers utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable, which enabled them to find better jobs and leave the TANF program.

Due to the significant decrease in the caseloads, we no longer have a contractual agreement with GDTAE. However, we still operate in partnership with them to serve the citizens of Georgia.

TANF CASELOADS

SFY 1999 thru SFY 2009

In SFY 1999 Georgia had 65,198 cases on its TANF rolls. We are happy to report that the current total number of cases on TANF in Georgia for SFY 2009 is 20,803. Georgia has reduced its rolls by 68% in ten years.

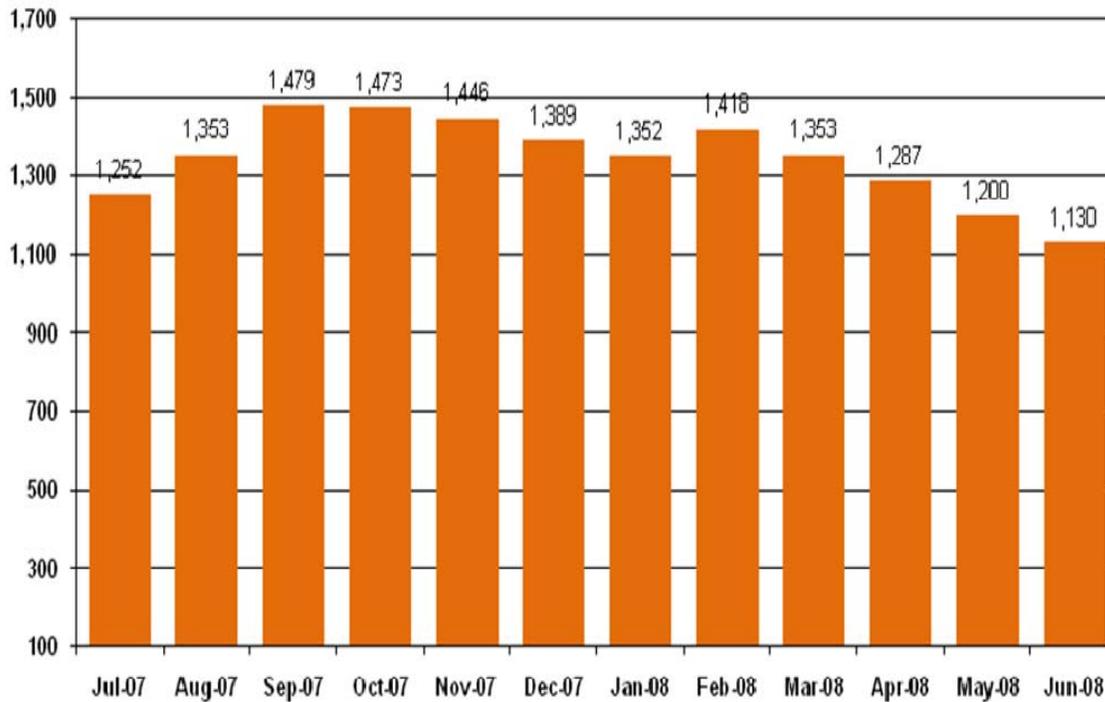

Work Supports

In addition to partnerships with other agencies, the availability of work supports was critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families required assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support.

In SFY 2006, Georgia implemented new policies, which provided TANF recipients with two new work support services. They were Employment Intervention Services (EIS) and Transitional Support Services (TSS). EIS is non-recurrent, short-term assistance that is equivalent to four times the maximum grant amount for the AU size. The availability of the EIS must be discussed with all clients during application process. EIS is available only once in a client's lifetime. TSS assistance provides transportation, childcare and various incidentals (occupational licensing fees, special work boots, clothing, tools, etc.) to allow TANF applicants and recipients to seek and/or maintain employment. Applicants who are employed or become employed but remain eligible for TANF cash assistance have an option to choose between EIS or TSS. They cannot receive both. TSS is available only once per 24-calendar-month period.

During SFY 2007, we implemented the Work Support Program. The Work Support Program provides Work Support Payments (WSP), Transitional Support Services (TSS) and Job Coaching to working families. In order to address job retention, the work support payments will assist the former TANF recipient with additional work related expenses or incidentals, while the TSS provides transportation, childcare and various incidentals needed to maintain employment. The services of the work support program are available to the former TANF families for a period of twelve (12) months and twice in their lifetime receipt of TANF.

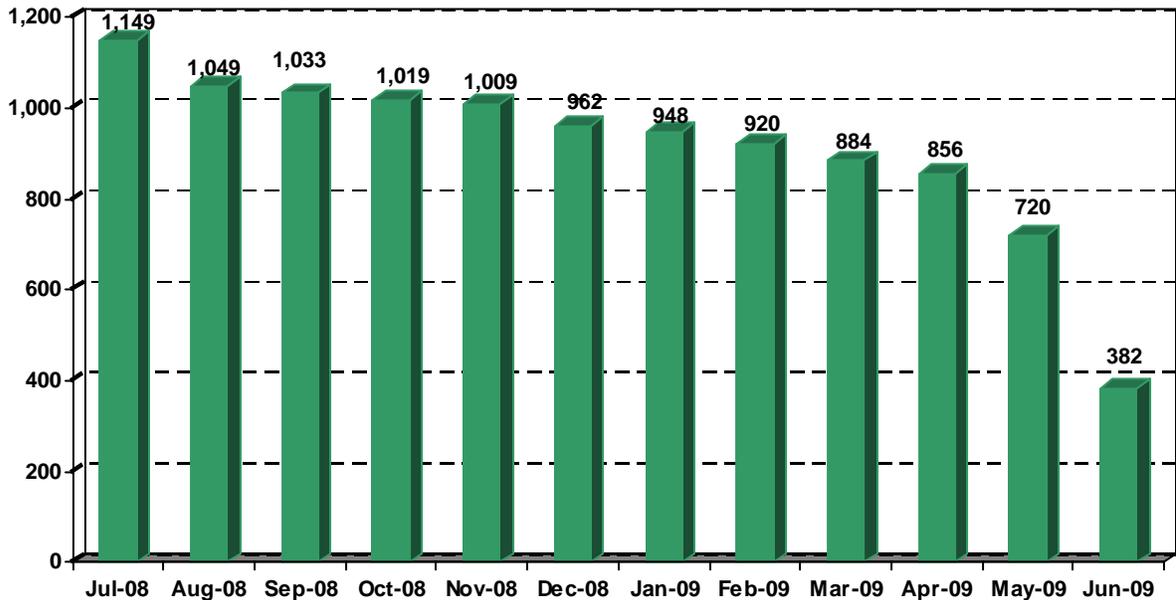

TANF Work Support Payments
Number of Clients
 SFY 2008

Source: COSTAR (WAS 528, Entitlement Code 69). Data is based on payments processed as of the end of SFY 2008.

TANF Work Support Payments

Number of Clients
SFY 2009

WSP

The Work Support Payments are paid through a two tiered process:

- During the first six months, the former TANF family can receive a cash supplement of \$200.00 per month. The family will also be eligible to receive transitional support services for this initial six-month period.
- During the second six months, the former TANF family can receive a cash supplement of \$100.00 per month. The family will no longer be eligible to receive transitional support services during this time.

As the caseloads decreased, the WSP also decreased during SFY 2009.

NOTE: The family that remains eligible for a reduced TANF check must be given an option to choose between TANF and the WSP.

EIS

Employment Intervention Service (EIS) is available to an applicant who has a short term critical need and she or he:

- has a full time job but is temporarily on unpaid leave due to his or her temporary illness or the illness of a family member and is scheduled to return to work within 4 months, and the family unit meets the gross income ceiling (GIC) test,
- is employed at the time of application and is potentially eligible for less than the maximum amount of cash assistance for the family size, and so declines TANF cash assistance to preserve months of TANF eligibility,
- obtains employment during Applicant Job Search that reduces his/her potential benefits and s/he decides to withdraw his/her application to stop the TANF clock.

Employment status and amount of earnings must be verified and documented in SUCCESS and the source of verification must be filed in the case record.

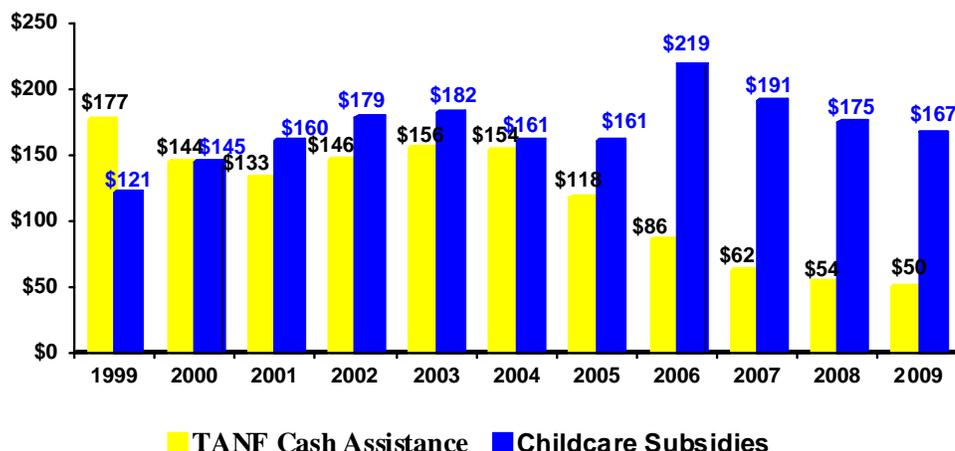

TSS

TSS is available for a period of six months beginning with the first month of ineligibility for cash benefits or the month in which the TANF case closes due to employment.

TSS is available to:

- an applicant whose employment obtained during applicant job search causes the family to become ineligible for cash assistance,
- an applicant who voluntarily withdraws his or her TANF application and chooses TSS because employment obtained during applicant job search has significantly reduced his or her potential TANF grant amount and the client wishes to preserve months of potential TANF eligibility,
- an applicant employed at the time of application, is potentially eligible for less than the maximum amount of cash assistance for the family size, declines TANF cash assistance to preserve months of TANF eligibility and chooses TSS to meet his or her immediate need to maintain the job,
- a recipient whose employment causes the family to become ineligible for cash assistance,
- a recipient whose on-going TANF case is closed due to loss of earned income disregards, or
- a recipient who voluntarily closes the TANF case because employment has significantly reduced the TANF grant amount and the client wishes to stop the TANF clock and preserve months of potential TANF eligibility.

Comparison of Cash Assistance and Childcare Expenditures in Millions of Dollars SFY 1999 thru SFY 2009

Transportation

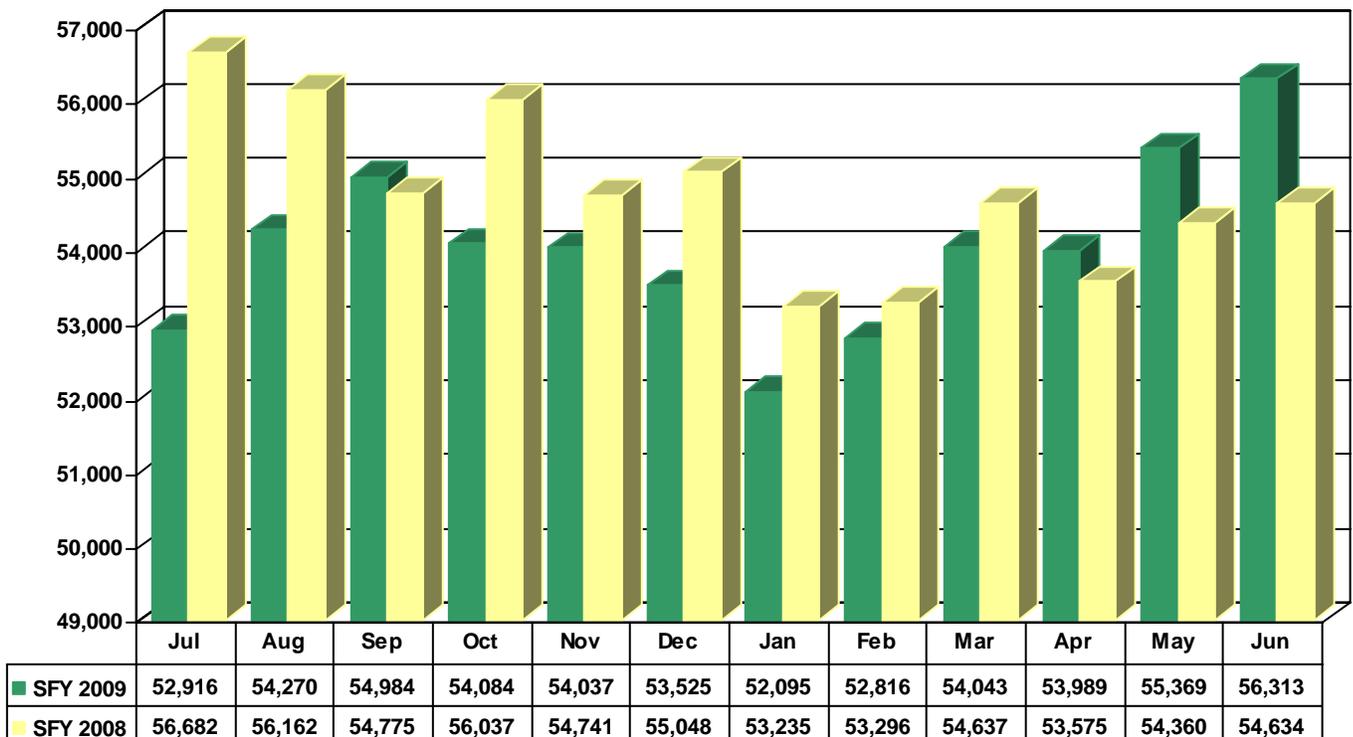

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHS/DFCS offers two transportation work supports options: direct payment to applicants and clients and transportation services through GDHS' Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHS/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 2000 to \$7.5M in SFY 2009. TANF funds paid directly to applicants and clients totaled \$1.7M in SFY 2009.

Childcare

Affordable, quality childcare is essential to the success of individuals going to work. The average number of children in childcare from month to month during SFY 2009 was 54,000 which was a decrease from the 54,700 children in care in SFY 2008. In addition, expenditures in the program steadily decreased over the last four years, from \$219M in SFY 2006 to \$167M in SFY 2009. Even with the decline in the number of children in childcare and the funds spent on the program, childcare continues to be one of the largest programs managed by caseworkers at the county level.

Number of Children in Childcare

*(Based on payments processed)
State Fiscal Year 2008 - 2009*

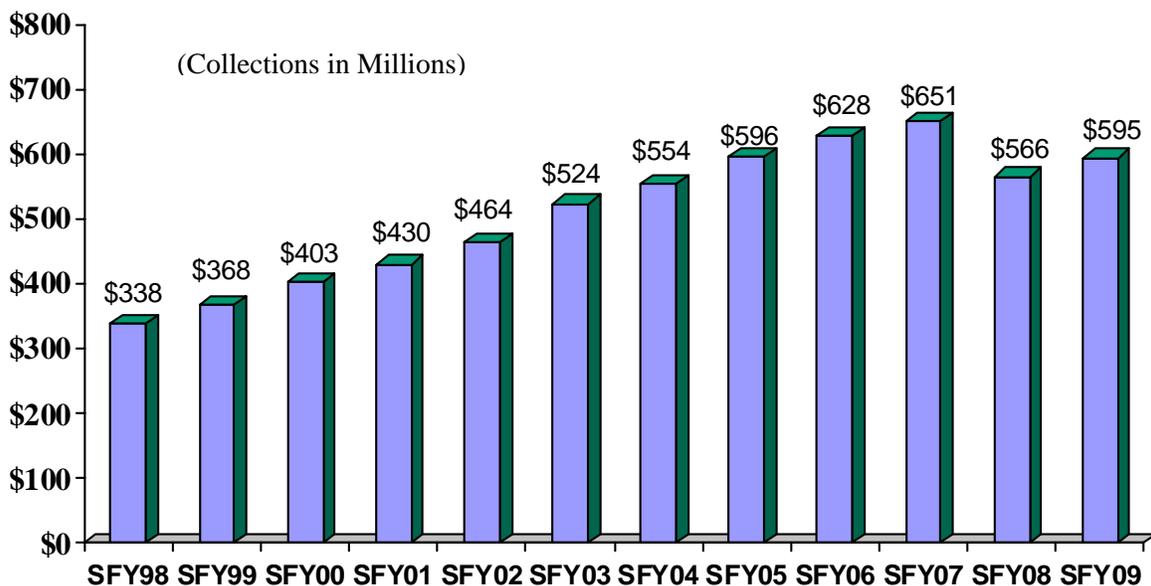

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. As of June of 2009, there were 685,358 Georgia families that received Medicaid through ABD, LIM, TMA, and RSM.

Child Support

Insufficient child support prevented many single parents from attaining economic self-sufficiency. Increased collections by the Child Support Enforcement (CSE) program are helping families receive more of the child support owed to them. There had been a slight drop in the amount of child support collected in SF 2008 (\$566M) but the collections rebounded (\$595M) in FY 2009.

Increasing Success in Collecting Child Support

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Department of Technical and Adult Education (DTAE) has taken the lead in this project. Job training is provided to assist fathers in securing employment that will

enable them to pay child support and provide for their children. This initiative teaches young men how to be more responsible parents.

Other Work Supports

The future of welfare reform in Georgia will include a continuing focus on moving families to economic independence through stable employment. Most recipients who are currently remaining on TANF fall into three main categories. The first and largest is comprised of children who receive TANF in “child-only” cases in which a non-parent relative is caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients who are enrolled in an activity and participating at the required federally mandated level for adults receiving TANF for themselves and their children. The third and most challenging category consists of recipients who are dealing with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The GDHS Division of Mental Health, Developmental Disabilities and Addictive Diseases (MHDDAD) provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The GDOL Vocational Rehabilitation (VR) Program provides disability assessments for recipients who allege a disability that impedes their ability to work. VR also places recipients in appropriate VR programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- GDTAE provides expanded adult literacy services.
- Domestic violence issues have been emphasized through various measures. Contracts have been signed with local shelters to provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.

Lifetime Limits

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month in which an assistance unit receives TANF, counts toward the 48-month lifetime limit. The federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria.

Hardship Waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are now three hardship criteria for case managers to use to evaluate each family's situation.

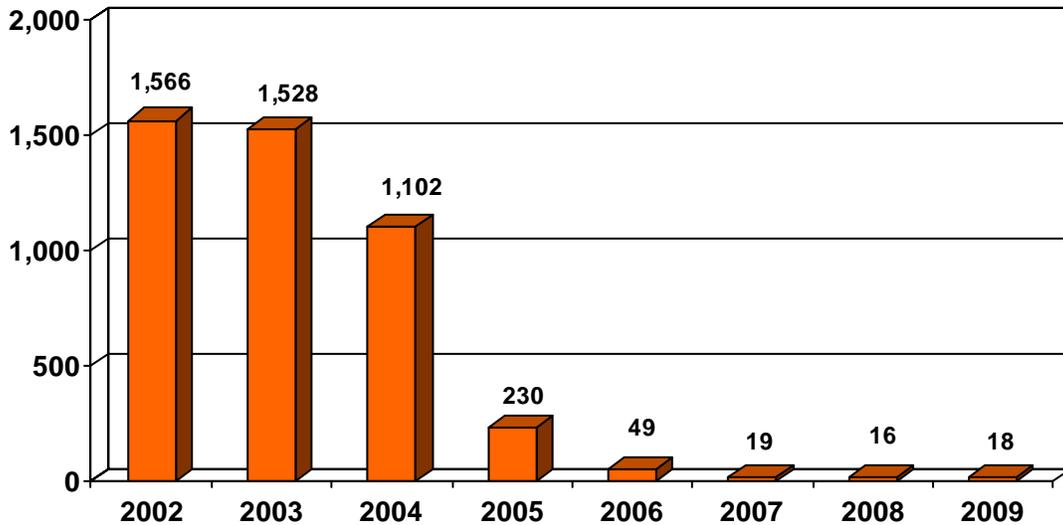

1. A family member is a victim of domestic violence or has been threatened.
2. The applicant/recipient has an active child protective services case and the circumstances necessitating the CPS case create a barrier to the applicant's/recipient's attainment of self-sufficiency.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of work supports, including Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has consistently decreased.

In December 2001 yet another milestone in the TANF program was reached when 311 Georgia TANF recipients reached the federally imposed 60-month TANF lifetime limit. Of these 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2004 there were 1,102 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension, while in June 2009; Georgia had only 18 families who received a hardship extension.

TANF Hardship Extensions June of the Year from 2002 to 2009

Teen Pregnancy Prevention

The Scope of the Problem

Preventing teenage pregnancy is critical to the vision of the Georgia Department of Community Health (DCH): Georgians living safe, healthy, and self-reliant lives. Research shows that the negative consequences of teen births on the health and well-being of individual youth and their families, community infrastructures, and Georgia's economy are both immediate and long-term. Analysis from the National Campaign to Prevent Teen Pregnancy shows that teen childbearing (teens 19 and younger) in Georgia cost taxpayers (federal, state, and local) at least \$344 million in 2004.¹ When teens give birth, they are less likely to complete high school and more likely to require government assistance to pay for the birth and care of their children. Children born to teen mothers may also experience poorer health outcomes, lower educational attainment, and higher rates of adolescent childbearing themselves when compared to children born to older mothers.²

Progress

Teen pregnancy rates have decreased both in Georgia and nationally. Georgia has made significant progress in reducing teen pregnancy and its associated personal and economic costs. The progress Georgia has made in reducing teen childbearing saved taxpayers an estimated \$227 million in 2004 alone. Despite the good news that the

¹ http://www.thenationalcampaign.org/costs/pdf/states/georgia/press_release.pdf

² http://health.state.ga.us/pdfs/epi/cdiee/CDIEE%20Data%20Summaries%202008/2008_TeenPG_Program_Data_Summary.pdf

rates are declining, Georgia must continue to reduce the teen pregnancy rate even further by reducing sexual activity among unmarried teens.

What is the Georgia Department of Community Health Doing?

During 1997, the Georgia General Assembly appropriated \$9 million in state and federal funds for a teenage pregnancy prevention initiative to be implemented beginning in FY1998 by the then Georgia Department of Human Resources.³

Together with WorkFirst, the aim of the teenage pregnancy prevention initiative is to prevent welfare dependency and improve economic opportunity and responsible parenting. Through this initiative, the Adolescent Health and Youth Development (AHYD) Unit was established. AHYD program strategies and activities are an integral part of the Georgia Maternal Child Health System, Family and Children Services, and other state, county, and community agencies.

In July 2009, the Division of Public Health transferred to the Georgia Department of Community Health (DCH). Located in the DCH, Division of Public Health, Health Promotions and Disease Prevention Programs, the AHYD Unit offers a comprehensive program addressing a wide range of risk-taking behaviors including substance abuse, violence, tobacco use, obesity, and teen sexual activity before marriage. AHYD-funded programs and services build on the strengths or “assets” of individual youth, their families, and individual communities; promote optimism about the futures of the youth it serves, and provide youth with important skills so that they can resist peer pressure and make healthy choices. The goal of Georgia’s Adolescent Health Unit is to help adolescents grow up healthy, educated, connected to their families and communities, and employable.

Strategies

Research shows that successful pregnancy prevention programs address the broad range of social and economic factors that affect teen behavior. No single approach is effective by itself. AHYD funds teen pregnancy prevention programs and services in communities throughout Georgia. AHYD funds 30 *Teen Center Programs* located in 28 counties and a District Youth Development Coordinator (YDC) in all 18 public health districts in Georgia. The state office provides ongoing program monitoring, technical assistance and training to district and program staff. AHYD program strategies and activities include:

- *Coordinated district adolescent health services.* District and county health departments actively partner with other local youth organizations/providers to co-sponsor health education and promotion events and to assure that youth have access to needed services and opportunities within their communities (e.g., legal services; food and housing assistance, dental services; tutoring and academic support; entrepreneurship; mental health counseling; youth development, physical activity, socialization, mentoring and related services). AHYD supports these local

³ http://dch.georgia.gov/vgn/images/portal/cit_1210/26/47/150831535BirthtoTeenAgers.pdf

partnerships and collaborations by providing funding for a District Youth Development Coordinator (YDC) in all 18 public health districts in Georgia. Annual plans demonstrate local collaboration.

- *Comprehensive preventive health services.* DCH funds 30 teen center programs to provide comprehensive prevention services, including abstinence education; drug and alcohol prevention education; and adolescent reproductive health services. Services are often placed in teen-friendly facilities and in locations such as shopping centers, welfare offices, community centers, and mobile units (vans) that go to places where teens feel comfortable. Most of the youth who come to the centers do so with the knowledge of their parents. The teens come with a wide variety of needs. They may ask for information, attend abstinence classes, learn to improve their reaction to stress and conflict, get advice on nutrition and physical activity, obtain sports physicals, be tested for a sexually transmitted disease or pregnancy, join a support group, or just have someone to talk to. These programs also provide youth access to screening for health problems and provide or link them with needed services such as immunizations and physicals. They hear about centers from their parents, other teens, school staff, caseworkers, community members, and outreach workers. Programs also pair pregnant teens with experienced mothers to encourage the young women to access prenatal care, provide them with information and resources to care for their babies, and prevent additional unplanned pregnancies. AHYD teen center programs are also funded to conduct male involvement education.
- *Abstinence education.* Abstinence is the primary prevention method promoted across AHYD-funded programs. Abstinence education emphasizes sexual abstinence as the best choice for all teens to prevent pregnancy and sexually transmitted diseases. AHYD teen center programs are funded to conduct “abstinence until marriage” education in conjunction with the DHR Teen Center Pregnancy and STD/HIV Prevention Policy (September 2004).
- *Outreach and community referral.* Adolescent Health and Youth Development programs coordinate with other professionals and agencies to assist adolescents and their families who are in need of AHYD services to obtain accurate information and easy access. Specially trained staff with first-hand knowledge of and experience with the challenges faced by many teens at-risk are available.
- *Parent education and involvement.* Information and education programs are available to help parents strengthen their parenting and communication skills, build strong bonds with their teen and understand the developmental changes specific to adolescence. Each DCH teen center program has established a Parent Advisory Committee (PAC) to provide parents a meaningful way to participate in planning decision-making, and opportunities for positive health promotion in the community.
- *Faith/health community partnerships.* AHYD has formed a partnership with members of the faith community, holding conferences with community faith and

public health leadership to engage them to work together for positive youth development and health promotion. In conjunction with the Emory Interfaith Health Program, Rollins School of Public Health, the Division of Public Health has developed a CD entitled *Empowering Congregations as Resources for Adolescent Health and Youth Development*, which provides information, tools, and online resources to help communities develop healthy youth. The CD is available through the AHYD Unit.

DHS Afterschool Care Program

Since the fall of 2005, the DHS Afterschool Care Program (formerly DHR Afterschool Services) has expanded out-of-school time services to school age youth throughout the state of Georgia. The program was designed to and continues to support DHS' broader goal of reducing teen pregnancy, promoting self-sufficiency among families and ending intergenerational poverty. Educational attainment and healthy living are key factors in preventing future welfare dependency among today's youth, particularly youth of economically disadvantaged families. Structured out-of-school time services can play a critical role in reducing the opportunity for youth to engage in at-risk behavior, including pre-marital sex, motivating youth to reach a high level of educational attainment, such as on-time grade promotion and graduation from high school, and can provide youth with an opportunity to increase physical fitness activity and gain exposure to good nutrition habits that helps in the prevention and decrease of obesity and other diseases and illnesses that can affect them.

In FFY '06 over \$13 million dollars in TANF and state funding were used to expand summer and afterschool programs for children ages 6-19. These funds were distributed to community-based organizations and public agencies and the awards ranged from \$28,000 to \$800,000 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Over 200 sites and 19,000 youth benefited from these services. Through a pilot program with the Division of Mental Health (formerly a part of the Department of Human Resources) 5,300 youth with severe emotional difficulty and behavior disorders took part in summer recreation programs. A total of \$3.5 million was provided for these programs.

In FFY '07 the budget in TANF and state funding remained at the same level but the distribution was changed. Funds were distributed to community-based organizations and public agencies. The awards ranged from \$18,000 to \$647,900 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. Over 230 sites and 19,000 youth benefited from these services. Through the continued partnership with the Department's Division of Mental Health, 2,800 young people with severe emotional difficulty and behavior disorders (or those at risk for developing such behaviors) took part in summer recreation programs. A total of \$1.8 million was provided for these programs.

In FFY '08 the Afterschool Care Program was funded solely with TANF funds. In addition, the maintenance of effort requirement was increased from \$20M to \$28M. Funds were distributed to community based-organizations and public agencies. The

awards ranged from \$25,000 to \$850,000 to \$8 million for the Georgia Alliance of Boys and Girls Clubs, Inc. to continue providing services state wide. Over 300 sites and 23,000 youth benefited from these services. \$1M in funding was allocated to continue the pilot program with the Division of Mental Health and service youth with severe emotional or co-occurring disorders.

In FFY '09 the Afterschool Care Program continued to provide funding to programs using only TANF funds and the awards ranged from to \$5,000 to \$850,000 for community-based organizations and public agencies and \$7 million for the Georgia Alliance of Boys and Girls Clubs, Inc. This year, the DHS Afterschool Care Program funds have impacted over 330 program sites and over 38,000 youth have benefited from these programs across the state. Through a partnership with the Georgia Afterschool Investment Council, United Way of Metropolitan Atlanta and the Governor's Office of Children and Families, the Georgia Afterschool Institute was implemented and provided professional development training to staff that work in the out-of-school time field.

THE RESULTS OF GEORGIA'S PRWORA INITIATIVE

Georgia has successfully achieved and in some instances exceeded the goals and requirements of the TANF program as mandated by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, including participation rates, maintenance of effort spending, and reducing the teen pregnancy rates. This effort has enabled thousands of Georgia's citizens to achieve an improved way of life through welfare reform. Children of TANF families observe first-hand the benefits of work, as their parents provide for them a higher standard of living than was possible on welfare. These positive role models will, undoubtedly reduce the likelihood of children becoming future adult TANF recipients. Georgia will continue to demonstrate the successes that have been achieved for its families.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
