

Dear Employers:

Preventing accidents and injuries in the work force is a top priority with the State Board of Workers' Compensation. When strong safety programs are in place, workplace accidents are decreased, resulting in fewer lost time days and lower medical and indemnity costs. A healthy work force is a productive work force.

The Safety Library is one of the ways the Board supports and encourages each employer's efforts at accident prevention. The State Board of Workers' Compensation Safety Library contains a large number of videos on a wide variety of safety topics and is available to all employers in Georgia at no charge. The only cost to you is the postage required to return the video tapes to the Board.

We strongly encourage you to use the Workers' Compensation Video Library and tell other employers about this valuable recourse.

Let's work together to make Georgia the number one state in accident prevention.

Sincerely,

Carolyn C. Hall  
Chairman
