

Georgia Medical Fee Schedule – April 1, 2017

Section XIII: Transportation

Subsection A: Non-Emergency Services

The following are guidelines for reimbursement of non-emergency transportation. These codes are Georgia state-specific and should be used for workers' compensation billing purposes.

General Guidelines

Codes and fees specify ambulatory and lift van reimbursement separately.

Flat-rate, pick-up fees are not applicable.

Additional gasoline surcharge fees are not reimbursable as they are included in fee schedule reimbursement.

Very remote areas are considered 50 miles or more.

Wait-time fees are reimbursed at the fee rates listed below. A cumulative total-day wait time of one hour or more can be charged. There is no wait-time reimbursement for anything less than one hour for an entire day.

Holiday days are defined in Section IV of this fee schedule.

Any transportation fees outside of this schedule should be negotiated between the payer and provider before services are rendered.
